## SKILLS

React - Redux - JavaScript - Node.js - Python - SQL - SQLAlchemy - Sequelize - Docker - Pug - Jinja - HTML - CSS

## PROJECTS

**ZOOMIES** (JavaScript, Python, React, Redux, Docker, Heroku, PostgreSQL, SQLAlchemy)

[live](#) | [github](#)

*Zoomies is an online, searchable database connecting adoptable animals with caring homes.*

- Designed logic of two user types, Organizations, and Regular Users, with different authorization levels using the same UI for different purposes.
- Created custom modal framework using React reusable component architecture allowing for efficient development of all the forms along with the application, such as login, sign up, add a new post and edit a post.
- Implemented ORM to build a complete database allowing better control of the inputs that the users provide and making the code easier to update, maintain, and reuse.
- Developed a custom photo carousel using CSS3 and React to cycle through a series of pictures improving the UX.

**PRO.GRAM** (JavaScript, Python, ReactJS, AWS)

[live](#) | [github](#)

*Pro.Gram is an Instagram Clone where users can share favorite pictures, follow friends and like pictures.*

- Utilized React to create modals for posts to allow users to move along the application dynamically and intuitively.
- Connected React frontend to AWS S3 for user image file upload/deletion, minimizing server load and allowing for better scalability.
- Configured a follow button allowing users to see the pictures posted from accounts they follow on their main pages using a many-to-many relationship to allow users to be followers or to be followed.

**NIDO** (JavaScript, ReactJS, Sequelize, Express, Heroku, CSS, HTML)

[live](#) | [github](#)

*Nido is a Flickr clone designed to learn about and share South American birds.*

- Incorporated React-Redux container and Redux selector patterns to architect highly scalable and uni-directional front-end state management.
- Recorded user activity using React Router to create a seamless user experience during the authentication process and app navigation.

## EXPERIENCE

**Project Management and Consultant** | *Freelance*

Apr 2020 - Dec 2020

- Standardized the design and format of quote sheets for the client, using Photoshop, AutoCAD, and Adobe Pro DC to execute over 20 unique projects.
- Optimized a production process for hand-sanitizer dispensers for a company that quickly pivoted to manufacturing and distributing hand-sanitizer dispensers during the early stages of the Covid-19 pandemic, changing and overlapping some of the production processes, in addition to changing the design of the lid with the supplier, a faster assembly system appeared.

**Online Sales Assistant**

*Ally Fashion*

Spt 2019 - Mar 2020

- 6-month work and holiday sabbatical to improve English through immersive, hands-on work experience in Sydney, Australia.
- Designed a new tagging system for implementation across the warehouse resulting in increased organization and efficiencies.

**Real Estate Project Manager and Construction Superintendent**

*Construction Company Moller & Perez-Cotapos S.A.*

Nov 2013 - Jul 2019

- Oversaw financial management of \$90 Million in projects budget and reported committed costs and cash flow to key stakeholders including banks and the board of directors.
- Managed 12 projects, including 5 projects from beginning to end, involving early-stage planning, scheduling, permitting,

- management of field and office teams, 10+ subcontractors, during the construction process.
- Monitored quality control and tracked project milestones for a \$16M residential construction project.

## EDUCATION

**Web Development** - *App Academy*

*Jul 2021 - Feb 2022*

**Project Preparation and Evaluation, Certificate** - *Universidad de Chile*

*2016 - 2017*

**Title of Civil Constructor, BSE** - *Pontificia Universidad Católica de Chile*

*2008 - 2013*
